## Front-End Developer

📍 Mansoura, Egypt    ✉ ahmed.moharam.work@gmail.com    ☎ +201092635055    📁 Portfolio    in ahmedmoharam

🔗 Ahmedmoharam22

## Summary

Junior Front-End Developer skilled in building responsive, user-friendly web applications using React, JavaScript, and modern front-end technologies. Passionate about UI/UX, performance optimization, and writing clean, maintainable code. Experienced in integrating APIs, managing state with Redux, and working with version control systems like Git. Seeking an opportunity to contribute to a dynamic team and grow as a developer.”

## Education

### Mansoura University

2020 – 2025

Bachelor of Engineering in Computer Engineering

## Experience

### Front-End Mentor

Jan 2024 – Present

Web Masters

- Mentored front-end trainees, providing guidance on HTML, CSS, JavaScript, and modern frameworks.
- Reviewed and evaluated student projects, offering constructive feedback and improvement suggestions.
- Assisted students in building portfolios, preparing for technical interviews, and understanding industry best practices.
- Designed and delivered structured front-end training with real-world projects, focusing on problem-solving and best practices.

### Programming Instructor

June 2024 – Present

Ischool

I conducted offline training sessions for children, introducing them to programming fundamentals.

Designed interactive activities to make learning fun and engaging.

- • Helped students develop logical thinking and problem-solving skills.
- • Encouraged creativity by guiding them through simple coding projects.

### Front-End Developer Intern

Feb 2023 – May 2023

SEF Company

- Developed and optimized responsive web applications using HTML, CSS, and JavaScript.
- Collaborated with the team to implement UI/UX designs and enhance the user experience.
- Worked on real-world projects, improving performance and cross-browser compatibility.
- Gained hands-on experience with modern front-end frameworks and development tools.

## Projects

### Amazon Clone - E-commerce Website

[github/repo](#) [Demo](#)

- Features: Product listings, shopping cart, authentication, and dynamic UI.
- Tech Stack: React, Typescript, Redux Toolkit Tailwind CSS, Axios, React Slick React Toastify.

### Movies Website (Noxe)

[github/repo](#) [Demo](#)

- Noxe is a modern and user-friendly movie website that allows users to explore, search, and discover movies effortlessly. It features a dynamic homepage showcasing trending movies, top-rated films, and upcoming

releases. Users can search for their favorite movies, filter them by genre, and view detailed information, including cast, trailers, and reviews.

- Tech Stack: React, Redux toolkit, React Bootstrap.

### **Yummy**

[github/repo](#) [Demo](#)

- Yummy is a project I created using HTML, CSS, Bootstrap, and JavaScript. I utilized the principle of a single-page application without any frameworks and employed everything I learned in JavaScript.
- Tech Stack: HTML, CSS, JS, Bootstrap

### **Electro ( Shopping Cart )**

[github/repo](#) [Demo](#)

- This is an online marketplace where users can buy various electronic products. They can add any product to their shopping cart and mark them as favorites. Additionally, it features a login page for user authentication and a checkout page for completing purchases.
- Tech Stack: HTML, CSS, JS Bootstrap

## **Technologies**

---

**Front-End:** HTML, CSS, JavaScript, TypeScript, React, Redux, Next.js.

**Styling:** CSS, Bootstrap, Tailwind, Material UI.

**State Management and API Handling:** Redux, Redux toolkit, Context API , Axios, Fetch API.

**Tools and Version Control:** Git, GitHub, VS Code.

**Deployment:** Vercel, Netlify
